

## Uvistop TRM 1

### Description

UVISTOP TRM 1 is a synergistic blend of light stabilizers in powder form.

### Application

UVISTOP TRM 1 is designed to prevent the processing, light, weather, heat degradation of synthetic thermoplastic rubbers (SIS, SBS) and natural rubber, used for the production of PSA adhesive tapes, especially when white or light coloured.

### Technical Specifications

Method of analysis	MU	Standard
1. Total Solids	%	99±1
5. Melting Range	°C	60 - 80

### Handling

The recommended concentration is 0,2-0,4 pphr (parts per hundred of rubber).

### Storing

UVISTOP TRM 1 must be stored in a dry place. In original packaging, shelf life is 1 year.
