

Vinilprimer E5 B

Description

VINILPRIMER E 5 B is a primer for plasticized or rigid PVC film. It is based on a balanced blend of synthetic, natural elastomers and resin dispersions, properly stabilized and compounded.

Application

VINILPRIMER E 5 B allows to obtain a perfect adhesion between the adhesive mass (based on natural or synthetic rubber) and PVC film, without curing.

It is mainly used for self-adhesive tapes and film, either for packaging, or technical use.
