Color Tape W Dry White

(Provisional)

Description

COLOR TAPE W DRY WHITE is a white pigment masterbatch for colouring water based ACRYLIC adhesives. No solvent is involved. The product is free flowing and can be directly added into the adhesive.

Aspect: dust free beads
Type of pigments: inorganic (metal oxides)
Average pigment content: 82%

Application

COLOR TAPE W DRY WHITE is dust free and thus very easy to handle.
The product is safe and clean in handling (see Safety Data Sheet).

Technical Specifications

Method of analysis	MU	Standard
40. Delta CMC 1,1		< 1.5

Handling

In general, we suggest to use 2.5-3 % of **COLOR TAPE W DRY WHITE** on water based acrylic PSA's with a solid content of 50%.

The product must be directly added into the adhesive and mixed till complete dissolution.

Packaging

COLOR TAPE W DRY WHITE is supplied in 25 kg plastic coated paper bags.

Storing

Shelf life is 2 years. Product doesn't contain water and is not sensitive to freezing conditions.

Protect from humidity.

Use within 12 months from production date (unopened and in the original packaging).

Build date 11 Sep 2025
