

# Release G 100 DIL.3 B- Eco

(Provisional)

## Description

**RELEASE G 100 DIL.3 B-ECO** is a polyvinylcarbamate in solvent solution (hydrocarbons C6-C7 (benzine) and isopropyl alcohol). It does not contain aromatic solvents.

## Application

The product is a very efficient release agent for polypropylene, polyethylene, PVC, reinforced PVC and polyester films with natural, synthetic rubber and acrylic adhesives. It is also designed to be used with the 3 steps printing process of PSA tapes, when aromatic solvents are not accepted.

## Technical Specifications

Method of analysis	MU	Standard
1. Total Solids	%	3±0.20

## Handling

Apply 3-5 g/sqm of **RELEASE G 100 DIL.3 B-ECO** as such or after dilution. Drying must be very efficient, in order to avoid any solvent residue. It can be used on corona treated as well as on untreated films.

## Packaging

The product is supplied in Iron drums (20 kg); iron drums (180 kg).

## Storing

Store at temperatures higher than +18°C, far from direct sunlight.

Use within 12 months from production date (unopened and in the original packaging).

## Notes

**RELEASE G 100 DIL.3 B-ECO** tends to jellify at temperatures lower than +20°C: the solution becomes hazy and some material settles down at the bottom of the container. If restoring pristine conditions before use becomes necessary, just heat the product at 35-40°C and stir to complete homogeneity.
