

FLAMERETARDER PU 118

(Provisional)

Description

FLAMERETARDER PU 118 is a fire-retardant additive, free of halogens and Antimony compounds.

Application

FLAMERETARDER PU 118 has been developed to work as a fire-retardant additive in latex for textile applications.

Technical Specifications

Method of analysis	MU	Standard
1. Total Solids 3. Brookfield Viscosity 25°C	% mPa.s	66±2 500 - 1,500 ⁽¹⁾
8. pH Solvents	рН	7 - 10 water
^(l) N. 2 RV; 20 RPM		

Handling

The product tends to separate, and must be stirred well sealed each use.

Storing

Store at temperatures between +5 and +35 °C, in well closed containers.

In case of prolonged storage, it is necessary to stir the product periodically, to avoid separation and precipitation.

Use within 3 months from production date (unopened and in the original packaging).
