# Color Paste AS Black 12

(Provisional)

## Description

COLOR PASTE AS BLACK 12 is a dispersion of carbon black (C.I. PIGMENT BLACK 7) blended with resins and solvents.

## Application

The product is designed for coloring solvent based acrylic adhesives, aromatic and aliphatic polyurethanes in DMF and aliphatic polyurethanes in IBA/toluene.

## Handling

The quantity to add depends on the desired final effect; usually it is 5-10%.

In order to avoid dots on the coated film, it is very important to disperse COLOR PASTE AS BLACK 12 well into the product. To avoid sedimentation, we recommend to stir well the coloured product before each use.

## Packaging

The product is supplied in iron drums (25 kg).

## Storing

Use within 12 months from production date (unopened and in the original packaging).
