

## Antiox W 54

Use within 12 months from production date (unopened and in the original packaging).

### Description

ANTIOX W 54 is a 40% TS aqueous dispersion of a sterically hindered phenolic antioxidant. ANTIOX W 54 protects the substrates against thermo-oxidative degradation during manufacturing, processing and end-use.

### Application

Antiox W 54 is recommended for the stabilization of PVC. It is also a very effective antioxidant for natural and synthetic latex water borne adhesives.

### Technical Specifications

Method of analysis	MU	Standard
1. Total Solids	%	40±1
8. pH Solvents	pH	5 - 7 water

### Handling

Add ANTIOX W 54 directly in the water dispersion. Recommended quantity for water borne adhesives is 0,2-1%.

### Packaging

The product is supplied in plastic tanks (20 kg); plastic drums (50 kg); iron drums (200 kg); IBC containers (900 kg).

### Storing

Store at temperatures between + 5 and + 40°C. Protect from freezing. If stored for a prolonged time, stir well before use.
