

S.L. 62

(Provisional)

Description

S.L. 62 is an acrylic latex in anionic water emulsion.
The product is APEO free. Tg = -25°C

Use within 6 months from production date
(unopened and in the original packaging).

Application

S.L. 62 can be used as binder for textile, paper, etc
without residual tack.
It has a very soft hand after drying. Applied on
fabrics, it is resistant to washing and rubbing.
