Tacksol 10/86 HTC

Description

TACKSOL 10/86 HTC is a solvent borne pressure sensitive adhesive, based on natural rubber and special resins. It has a good wettability on various substrates.

Application

TACKSOL 10/86 HTC can be applied on any substrate (paper, PET, PP, PE, PVC). It is a soft adhesive and is recommended for the production of protective p.s. films and tapes with low gsm values.

Technical Specifications

Method of analysis	MU	Standard
1. Total Solids 3. Brookfield Viscosity 25°C Solvents	% mPa.s	30±1 1,000 - 2,500 ⁽¹⁾ hexane
^(I) No 2 RV; 10 RPM		

Film properties
