

Cutting Varnish PAM+ADD

Description

CUTTING VARNISH PAM + ADD is a transparent ink for flexo printing of BOPP packaging tapes.

Application

It is suggested to be added into COLOR INK PP PAM + ADD INKS to improve the fluidity and transference during flexo printing.

Technical Specifications

Method of analysis	MU	Standard
Solvents		xylene / toluene / isopropyl alcohol

Handling

Add 5-10% into COLOR INK PP PAM + ADD INKS, if necessary.

Make some trials on lab scale, to check the correct quantity to add.

The addition of CUTTING VARNISH PAM + ADD can modify the colour intensity.

Storing

Store at temperatures between +20°C and +40°C.

Use within 6 months from production date (unopened and in the original packaging).
