

Naphtenic Oil 100

Description

NAPHTENIC OIL 100 is a mineral naphtenic oil, obtained from crude oil refining.

The hydrogenation process guarantees a high purity grade.

NAPHTENIC OIL 100 has a good resistance towards oxidation, good solvent properties and a low pour point (-15°C).

Application

NAPHTENIC OIL 100 is used as a lubricant or as raw material for different applications.

Technical Specifications

Method of analysis	MU	Standard
54. Viscosity	Sec.	100 - 120 ⁽¹⁾
79. Flash Point	°C	> 200
92. Density at 15°C		1 - 1

⁽¹⁾ At 40°C

Storing

Use within 6 months from production date (unopened and in the original packaging).
