Retarder C NITRO

Description

RETARDER C NITRO is a solvent based additive (METHOXY PROPANOL) for our **COLOR INK PP NITRO** printing ink series.

Application

RETARDER C NITRO can be used to decrease the drying speed of our **COLOR INK PP NITRO,** when it is necessary.

Handling

Add maximum 5% of **RETARDER C NITRO** to **COLOR INK PP NITRO**, stir well and start printing.

Storing

Store the product away from heat sources and ignition sources.

Keep the container well closed.

Use within 12 months from production date (unopened and in the original packaging).

Above information is reliable, but does not constitute warranty.
